

NashLens: interactive CFR-distilled policy inspector

1. Scenario

Game: Kuhn / Leduc
/ liars_dice

Infoset: card
+ betting history

Action set and legal mask

Controls

zero
reward

zero
opponent

teacher
compare

export
case

2. Policy inspector

CFR teacher policy
near-equilibrium target

Additive student logits
reward + opponent + intrinsic

action	prob.	logit factors
--------	-------	---------------

pass	0.650
------	-------

bet	0.350
-----	-------

Softmax is recomputed after interventions.

3. Evidence

Exploitability
exact best response

Factor intervention
Delta when removed

Semantic checks
masks + permutation

live summary

Kuhn: 0.0043 +/- 0.0014
Leduc: 0.1754 +/- 0.0138
liars_dice: stress-test

Demo output: walkthrough, screencast, reproducible figure/table package
